Communication & Mass Media Complete provides the most robust, quality research solution in areas related to communication and mass media. CMMC incorporates the content of CommSearch (formerly produced by the National Communication Association) and Mass Media Articles Index (formerly produced by Penn State) along with numerous other journals in communication, mass media, and other closely-related fields of study to create a research and reference resource of unprecedented scope and depth encompassing the breadth of the communication discipline. CMMC offers cover-to-cover (“core”) indexing and abstracts for more than 670 journals, and selected (“priority”) coverage of nearly 200 more, for a combined coverage of more than 870 titles. Furthermore, this database includes full text for over 520 journals.
